Summary of Improvements to the PDF Generation

I've made several significant improvements to the PDF generation to fix the formatting issues with long text in the approval and rejection documents:

Improved Text Processing:

Enhanced the text processing to handle existing line breaks in the input text

Added proper paragraph handling with double line breaks between paragraphs

Reduced the line length for better readability (60 characters per line instead of 80)

Ensured consistent formatting for all text, not just long text

Enhanced Table Formatting:

Added more cell padding for better readability

Used thinner and lighter lines for a cleaner appearance

Set a minimum cell height to prevent cramped text

Applied consistent formatting across all tables in the document

Better Page Break Handling:

Improved the page break detection to ensure content doesn't get too close to the bottom

Added a mini-header on continuation pages for better navigation

Increased margins to prevent content from being cut off

Ensured the signature section starts on a new page if there's not enough space

Consistent Styling:

Applied the same styling to all tables for a consistent look

Used the same column widths across tables

This document was automatically generated on May 20th, 2025 and serves as official proof of the transfer rejected.

Ensured proper text overflow handling in all tables

Type	Reason
	Long text in the requester's reason and manager's reason is properly formatted
	The document doesn't crash or get corrupted when text is too long
	Content flows properly across multiple pages with clear page breaks
	The document maintains a professional and consistent appearance
	The PDF document will now handle long text properly, ensuring that both approval and rejection documents look professional and are easy to read, regardless of the length of the reasons providedewwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwww wwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwww wwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwww wwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwww wwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwww wwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwww wwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwww wwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwww wwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwww wwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwww wwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwww wwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwww wwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwwww wwwwwwwwwwwwwww
